

#### HARDWARE PURCHASE PRICE LIST FOR EHR SYSTEMS

Effective 01/01/2011

All prices and specifications subject to change without notice

EHR systems must use computers with the highest reliability. If an EHR computer fails, the Physician will not be able to review patient records or add treatment information. This is especially true of the EHR server computer.

#### SERVER COMPUTER ..... \$6,999.00

This computer is a stand-alone server computer for EHR applications. It is meant for demanding applications where down time is critical. It includes an Intel X3330 2.66 BHZ 1333FSB Quad-Core 775 6MB Processor, SuperMicro X7SB3-F-O Intel 3210 DDR2 DUAL GB LAN ATX motherboard, 8 Gbyte of DDR2 ECC Fully Buffered memory, dual 800W Redundant HOTSWAP power supply in ATX case with dual upgraded cooling fans, on board video, USB 2.0 ports, four SEAGATE ST3146356SS 146GB 15KRPM 16MB hard drives in RAID 10 configuration with additional 1 TB 7200 RPM SATA internal backup drive in redundant configuration with drive coolers, CD/DVD+-RW, network adaptor, onboard sound, electronic screen and keyboard selector, Windows Server 2008 R2 Standard 64 Bit Operating System with 5 CALs, Windows SQL 2008 R2 Standard 64 Bit System with 5 CALs, and Microsoft Office 2010. Managed Services for this computer is \$99 per month.

#### STANDARD WORKSTATION COMPUTER ..... \$999.00

This workstation computer includes an Intel Core 2 Quad 2.33 GHZ LGA775 1333FSB Processor 4MB L2 CACHE, Intel DG41RQ LGA 775 G41 Micro ATX Intel motherboard, 4 Gbyte of DDR2 800 memory, 300 watt power supply in Micro ATX case, on board video, USB 2.0 ports, 1.0 TB 7200 RPM SATA hard disk drive, CD/DVD drive, network adaptor, onboard sound, 19 inch wide screen LCD 1680x1050 monitor, wireless keyboard and mouse, Windows 7 Professional 64-Bit Operating System. Optional Managed Services for this computer is \$29 per month.

#### PREMIUM WORKSTATION COMPUTER ..... \$1,899.00

This workstation computer includes an Intel Core 2 Quad 2.5 GHZ LGA775 1333FSB Processor 4 MB L2 CACHE, Intel DDP45SG LGA 775 P45 ATX Intel motherboard, 8 Gbyte of DDR3 PC2 10600 memory, 700 watt advanced power supply in ATX case with dual upgraded cooling fans, Sapphire 100234HDMI Radeon 512MB 64-Bit Video Card, USB 2.0 ports, dual 1.0 TB 7200 RPM SATA hard disk drives in redundancy configuration with drive coolers, CD/DVD drive, network adaptor, onboard sound, 22 inch wide screen LCD 300CD/M2 2500:1 monitor, wireless keyboard and mouse, Windows 7 Ultimate 64-Bit Operating System, and Microsoft Office 2010. Optional Managed Services for this computer is \$29 per month.

#### XT2 COMBINATION TABLET AND NOTEBOOK PC ..... \$2,686.00

This system includes Microsoft Windows 7 Professional operating system, Intel Core 2 Duo SU9600 with VT (1.60GHz, 3M L2 Cache, 800MHz FSB), DLV 12.1 inch LCD, Microsoft Office Starter 2010, 3 Year Basic Limited Warranty and 3 Year NBD On-Site Service, Trend Micro Internet Security 30 Day trial, 2.0GB DDR3 SDRAM, (1GB Integrated) 2 DIMMs, 160GB Hard Drive, 5400RPM, Free Fall Sensor, E-Module w/ 8X DVD with Cyberlink PowerDVD, Dell Wireless™ 1510 802.11a/g/n Mini Card, Resource DVD - Contains Diagnostics and Drivers, 6 Cell Primary Battery, 65W A/C Adapter (3-Pin), Mobile Intel Graphics Media Accelerator 4500MHD. Optional Managed Services for this computer is \$29 per month.

#### FUJITSU FI-6130 DUPLEX SCANNER ..... \$999.00

This scanner is capable of scanning a two sided document. It has an automatic sheet feeder that can be loaded with up to 50 pages, and will scan at up to 40 ppm in color. This scanner will be used to initially load patient charts into the EMR and for other multi page scanning requirements.
