All prices and specifications subject to change without notice

Computers sold by Tele Comm are assembled in the United States with the best components from the finest manufacturers. Every effort is made to purchase components manufactured in the United States. They are designed to last and to keep down time to an absolute minimum. Replacement Workstations are economical workstations without displays, keyboards, or mice, and are meant to be replacements for existing workstations that are no longer usable due to failure or insufficient specifications. Replacement and Standard Workstations are high quality computers packaged in a micro ATX case which can be placed under or on top of a desk. The Standard Workstations include advanced processors and motherboards, high capacity hard drives in a redundant configuration, high quality large wide screen displays, and wireless keyboards and mice. Hardware Managed Service Contracts start at \$15 per month for all workstation computers.
